Abshade

Domestic Plus

ABSHADE® Domestic Plus grade shadecloth is especially designed for the hardware industry. The Medium and Extra Heavy shade factors are ideal for hardware sales into the domestic market for home use (such as pergolas, BBQ areas & privacy)

ABSHADE® Domestic Plus is manufactured using a heat-set stentoring process, in which the fabric is passed across a series of heated surfaces. The result is a fabric that is very stable, is easy to dispense and work with and looks great. In addition it has less of a tendency to shrink if left in the sun.

ABSHADE® Domestic Plus should not be used in sails or other tension applications as the cloth is not designed to tolerate heavy wind loads. Nor are the fabrics suitable for nurseries that require a very accurate shade factor.

ABSHADE® Domestic Plus shadecloth carries a **15 year UV Warranty.**

PRODUCT	COLOURS	ROLL WIDTH	ROLL LENGTH
Domestic Plus Medium STENTORED HEAT SET	Black, Dark Green or Sandstone	1.83m (centrefolded 915mm)	50m
		3.66m	50m
