

## BLACK POLYTHENE

**BLACK POLYTHENE** is an all purpose Black Builders Film. It meets all regulatory requirements of AS 2870- 1996 Concrete Underlay 0.22mm – Medium Impact Resistance.

Black Polythene is generally used in underlay for concrete beds, nursery floors and under gravel beds and is available in 2m, 4m and 6 m wide rolls. The Black Polythene is not highly UV stabilised but is designed for an expected life of approximately 3-4 months in the sun.

PRODUCT	COLOUR	ROLL WIDTH	ROLL LENGTH
IR2 (100um)	BLACK	2m (centre folded 1m)	100m
IR2 (200um)	BLACK	2m (centre folded 1m)	50m
IR2 (200um)	BLACK	4m (centre folded 2m)	50m
IR2 (200um)	ORANGE	4m (centre folded 2m)	50m
IR3 (200um)	BLACK	2m (centre folded 1m)	50m
IR3 (200um)	BLACK	4m (centre folded 2m)	50m
IR3 (200um)	BLACK	6m (centre folded 3m)	33m

### SPECIFICATION

Construction	Black LDPE
Weight	2m rolls – 18kg 4 & 6m rolls – 36 kg
<b>Low UV Stabilisation – Suitable for Gardens &amp; Landscaping</b>
