

Domestic Plus

ABSHADE® Domestic Plus Shadecloth is specifically designed for the hardware industry. The Medium and Extra Heavy shade factors are ideal for hardware sales into the domestic market for home use (such as pergolas, BBQ areas & privacy screens).

ABSHADE® Domestic Plus is manufactured using a heat-set stentoring process, in which the fabric is passed across a series of heated surfaces. The result is a fabric that is very stable, is easy to dispense and work with and also looks great. In addition to this, it has less of a tendency to shrink if left in the sun.

ABSHADE® Domestic Plus should not be used as sails or other in tension applications as the cloth is not designed to tolerate heavy wind loads. The fabric suitable is not for nurseries that require a very accurate shade factor.

ABSHADE® Domestic Plus Shadecloth carries a **10 year UV Warranty**.

PRODUCT	COLOURS	ROLL WIDTH	ROLL LENGTH
Domestic Plus Medium STENTORED HEAT SET	Black, Dark Green or Sandstone	1.83m (centre folded .915m)	50m
		3.66m (centre folded 1.83m)	50m
