

Abmat[™] SILT FENCE

ABMAT[™] Silt Fence provides a low cost sediment barrier solution to prevent erosion, keeping silt in place where soil is being disturbed by development. Generally used on construction sites, **ABMAT[™]** Silt Fence is strong enough to handle the weight of particles that may build up around the edge of the site.

ABMAT[™] Silt Fence is made from a high quality, heavy duty woven polypropylene filter fabric and is UV stabilised.

Available in 50m and 100m rolls.

PRODUCT CODE	COLOUR	ROLL WIDTH	ROLL LENGTH
SF7C	Green/Black	770mm	100m
SF7L	Green/Black	770mm	50m
SF8C	Green/Black	860mm	100m
SF8L	Green/Black	860mm	50m

SPECIFICATION

Construction	Woven polypropylene
Weight	90gsm
UV Stabilised – suitable for construction sites & fencing
