

HAILNET

ABSHADE® Hailnet is especially designed to help the horticulture industry to minimise damage to crops from hailstorms and excessive winds. The low shade factor can also assist by offering heat protection to plants and seedlings.

ABSHADE® Hailnet has reinforced selvages at 5m & 6m widths, plus centre reinforcement. We provide a 10 year warranty against product failure due to ultra violet degradation.

ABSHADE® Hailnet is available in White.

COLOUR	ROLL WIDTH	ROLL LENGTH
White	6m	100m

SPECIFICATION

Construction	Knitted HDPE
Nominal Shade	Approx 18-20%
Selvages	5 & 6m widths plus centre reinforcement
