

Abmat™ Geo-Fabric

Abmat™ Geo-Fabric is constructed of needle punched Polyester short filaments. These filaments form a stable matrix exhibiting excellent strength and hydraulic characteristics, allowing this product to be used for numerous situations where an economical solution is required for filtration and soil stabilisation in domestic landscaping applications.

Available in 50m rolls and convenient Handy Packs, smaller roll sizes designed to accommodate most frequently purchased sizes.

Colour	Roll Width	Roll Length
Black	1m	7m
Black	1m	15m
Black	1m	50m
Black	2m (Centre folded to 1m)	7m
Black	2m (Centre folded to 1m)	15m
Black	2m	50m

Specifications	
Construction	Non-woven Polyester
Thickness	1.2mm
Weight	100 gsm
