

Abshade Quad Net

Abshade™ Quad Net is a multi purpose Raschel Wrap Knitted product suitable for hail protection, wind protection, shade protection and bird / pest exclusion. **Abshade™** Quad can also assist in creating a micro-climate which helps promote positive plant growth and aids in reducing transpiration evaporation and 'spray drift'.

The reinforced edge and centre of the fabric makes for easier handling and our 10-year warranty* against product failure due to ultra-violet light will put your mind at ease.

Abshade™ Quad Net range has been developed with the industry in mind and includes many different aperture sizes allowing for flexibility when it comes time to choose the product that best matches your needs.
