# Abshade Ultimate Shade Cloth

**Abshade™** Ultimate shade cloth is specifically designed for the hardware industry and is ideal for use in the domestic market in applications around the home (e.g. pergolas, BBQ areas & privacy screens)

The fabric is manufactured using a heat-set stentering process, which results in fabric that is very stable, easy to dispense and looks great. In addition, stentering also minimises shrinkage if left in the sun.

**Abshade™** Ultimate shade cloth carries a **15 year UV Warranty**.

**\*Ultimate 90% is compliant with UVE Australian people shade standard\***  
**Australian Standard AS4174:2018**
